PureVision Contact Lenses

Bausch & Lomb
Perfecting Vision. Enhancing Life.™

Ask your optometrist about Bausch & Lomb PureVision™ silicone hydrogel contact lenses with enhanced aspheric optical design. PureVision contact lenses deliver the ultimate technology in material and optical design to provide you with exceptional vision, health and comfort.

- Enhanced aspheric optical design delivers next-generation aberration correction for exceptional vision.
- AerGel™ silicone hydrogel material coupled with Performa™ surface process delivers:
 - Enhanced wettability and deposit resistance without inhibiting oxygen or fluid transport.
 - High oxygen transmissibility for healthy, white eyes.
 - Reduced risk of hypoxic stress to help maintain excellent ocular health.
